# CASEY'S DAY

The first chapter in the entire Bible shows us how creative our God is. For starters, he created an estimated 3,000,000 different types of animals and plants. Of these 900,000 are insects, and scientists discover 10,000 new species every year. God must have an incredible imagination to create all of these living things from nothing!

But here's the most exciting thing: God created us in his image ([Genesis 1:27](#)). This means that in many ways, we are like God. When we learn more about who God is, we all discover who we are meant to be. God made us to love him and to be loved by him. He made us so that we can show his love through our own creativity!

God created you to be creative like him, so no matter how uncreative you might sometimes feel, you can still go out and make things yourself. God loves to see you doing that!

Being creative doesn't just mean singing songs or drawing pictures—although those things are important! You use your God-given creativity whenever you make a craft, build a fort, solve a math problem, play your favorite sport, plant a flower, or write a nice letter to your grandma. It takes creativity to do everyday things like cook your dinner or fix the family car. When you use your creativity, you show everyone around you a picture of who God is.

## Prayer

Father, thank you for creating this world and for creating me. Help me to make things and use my imagination to love you and to love those around me. Amen.
