# CASEY'S DAY

Have you ever looked up at the stars? They are light years away, and sometimes you have to squint to see the constellations. But through a telescope, the stars can suddenly look very clear and close, as if you could touch them. God's promises for us are a lot like the stars. At first glance, God may seem so far away and his plans even farther. But he's given us a great tool to help us see his plans more clearly. That tool is the Bible!

In the Bible, God promised Abraham that his family would grow to be as numerous as the stars. Abraham and his wife, Sarah, were very old. Abraham still believed God's promise, at first. But after years went by with no baby, they became discouraged and doubted God's promise. After all, it seemed so impossible and as far away as the stars.

God didn't go back on his promise to Abraham and Sarah. When Abraham was one hundred years old, Sarah gave birth to their son, Isaac. He would grow up to have children and grandchildren through whom

God would work to carry out his plans. God faithfully blessed their family and made them part of his big story.

When life is challenging or confusing, we too may become doubtful and discouraged. But the Bible is like a telescope that helps us zoom in on God's plan; it reminds us that God works all things together for good. God gave us his Word to be the lens through which we can look at our lives. Ask him to make his promises clear and to help you trust in his plan. After all, he has written all the chapters of our lives, and he weaves them together to be a part of his wonderful story.

## Prayer

Dear God, I know you have a plan for me as you did for Abraham and Sarah. Please forgive me for the times I doubt your promises. Help me to believe your Word and listen to you. Please make it clear how I can be a part of your story. Amen.
